
Product Data Sheet

Product Name: SV40 Nuclear Transport Signal Peptide Analog

Cat. No.: GA23574

Chemical Properties

Cas. No. 104914-40-1

Formula $C_{60}H_{104}N_{20}O_{15}S$

M.Wt

1377.68

Solubility Soluble in DMSO

Storage

Store at -20°C

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

NLS, cell-penetrating peptide containing 7 amino acids homologous to the SV40 T antigen, was capable of inducing the transport of several carrier proteins to the nucleus. The terminal cysteine permits the attachment of this peptide to any protein using

Caution: Product has not been fully validated for medical applications. For research use only.
