
Product Data Sheet

Product Name: Thymic Factor

Cat. No.: GA23609

Chemical Properties

Cas. No. 63958-90-7

Formula $C_{33}H_{54}N_{12}O_{15}$ M.Wt 858.86

Solubility Soluble in DMSO Storage Store at -20°C

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

For exerting its anti-inflammatory and immunomodulatory activity, the peptide hormone thymulin, pEAKSQGGSN, requires the presence of Zn(II). Thymulin showed promising results in experimental models of lung diseases as well as potential as an analgesic

Caution: Product has not been fully validated for medical applications. For research use only.
