**Product Data Sheet**

---

Product Name: Oleanolic acid derivative 1

Cat. No.: GC33865

**Chemical Properties**

Cas. No. 1724-18-1

SMILES C[C@@]12CC[C@](/C(CC3)=C(C)/C)([H])[C@@]3(C)[C@@]1([H])CC=C4[C@]5([H])CC(C)(C)CC[C@@](C(OC)=O)5CC[C@@]24C

Formula	C <sub>31</sub> H <sub>48</sub> O <sub>2</sub>	M.Wt	452.71
---------	--	------	--------

Solubility	Soluble in DMSO	Storage	Store at -20°C
------------	-----------------	---------	----------------

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

Oleanolic acid derivative 1 is an oleanolic acid derivative, which is a novel triterpenoid-steroid hybrid molecule.

Oleanolic acid suppress transcription or translation of inducible nitric oxide synthase (iNOS) and inducible cyclooxygenase (COX-2) genes. extracted from the reference, compound 9a. In the strategy, it was ambiguous whether phosphorus pentachloride (PCl<sub>5</sub>) would give the desired ring contraction product 9a in the first step according to classical procedures[1].
