
Product Data Sheet

Product Name: TCO-PEG3-acid

Cat. No.: GC60356

Chemical Properties

Cas. No. 2141981-86-2

SMILES O=C(OC1CC/C=C\CCC1)NCCOCCOCCOCCC(O)=OFormula $C_{18}H_{31}NO_7$ M.Wt 373.44

Solubility Storage

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

TCO-PEG3-acid is a PEG-based PROTAC linker can be used in the synthesis of PROTACs[1].

PROTACs contain two different ligands connected by a linker; one is a ligand for an E3 ubiquitin ligase and the other is for the target protein. PROTACs exploit the intracellular ubiquitin-proteasome system to selectively degrade target proteins.
