
Product Data Sheet

Product Name: Diethylene glycol bis(p-toluenesulfonate)

Cat. No.: GC60772

Chemical Properties

Cas. No. 7460-82-4

SMILES O=S(C1=CC=C(C)C=C1)(OCCOCCOS(C2=CC=C(C)C=C2)(=O)=O)=OFormula $C_{18}H_{22}O_7S_2$ M.Wt 414.49

Solubility Storage Store at -20°C

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

Diethylene glycol bis(p-toluenesulfonate) is a PEG-based PROTAC linker that can be used in the synthesis of PROTACs[1].

PROTACs contain two different ligands connected by a linker; one is a ligand for an E3 ubiquitin ligase and the other is for the target protein. PROTACs exploit the intracellular ubiquitin-proteasome system to selectively degrade target proteins[1].
