
Product Data Sheet

Product Name: Boc-C2-NH2

Cat. No.: GC61435

Chemical Properties

Cas. No. 15231-41-1

SMILES O=C(OC(C)(C)C)CCNFormula C7H15NO2 M.Wt 145.2

Solubility Storage 4°C, protect from light

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

Boc-C2-NH2 is an alkyl/ether-based PROTAC linker that can be used in the synthesis of PROTACs[1].

PROTACs contain two different ligands connected by a linker; one is a ligand for an E3 ubiquitin ligase and the other is for the target protein. PROTACs exploit the intracellular ubiquitin-proteasome system to selectively degrade target proteins[1].
