
Product Data Sheet

Product Name: Br-C10-methyl ester

Cat. No.: GC62356

Chemical Properties

Cas. No. 6287-90-7

Formula $C_{12}H_{23}BrO_2$ M.Wt 279.21

Solubility Storage Store at -20°C

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

Br-C10-methyl ester is a PROTAC linker, which refers to the alkyl/ether composition. Br-C10-methyl ester is used in the synthesis of a series of PROTACs (MS432). PROTACs contain two different ligands connected by a linker; one is the VHL ligand portion and the other is for the target protein[1].
