**Product Data Sheet**

---

Product Name: L-Ornithine-15N2 hydrochloride

Cat. No.: GC65096

**Chemical Properties**

Cas. No. 360565-59-9

Formula C<sub>5</sub>H<sub>13</sub>Cl<sub>15</sub>N<sub>2</sub>O<sub>2</sub> M.Wt 170.61

Solubility Storage Store at -20°C

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

L-Ornithine-15N2 hydrochloride is the 15N-labeled L-Ornithine hydrochloride. L-Ornithine hydrochloride is a free amino acid that plays a central role in the urea cycle and is also important for the disposal of excess nitrogen.

Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration has gained attention because of its potential to affect the pharmacokinetic and metabolic profiles of drugs[1].
