
Product Data Sheet

Product Name: H-Met-OiPr hydrochloride

Cat. No.: GC65224

Chemical Properties

Cas. No. 85391-05-5

Formula C₈H₁₈ClNO₂S M.Wt 227.75

Solubility Storage Store at -20°C

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

H-Met-OiPr hydrochloride is an Methionine derivative. H-Met-OiPr hydrochloride participates in the synthesis preparation of inhibitors of farnesyl-protein transferase (FTase), and can be used in cancer research[1].

[1]. Boyle FT, et al. Preparation and formulation of arylpyrrolidines as farnesyl transferase inhibitors for pharmaceutical use: World Intellectual Property Organization, WO2001046138[P]. 2001-06-28.

Caution: Product has not been fully validated for medical applications. For research use only.
