
Product Data Sheet

Product Name: Azido-PEG4-4-nitrophenyl carbonate

Cat. No.: GC65700

Chemical Properties

Cas. No. 1422540-98-4

Formula $C_{15}H_{20}N_4O_8$ M.Wt 384.34

Solubility Storage Store at -20°C

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure **Background**

Azido-PEG4-4-nitrophenyl carbonate is a PEG-based PROTAC linker that can be used in the synthesis of PROTACs^[1].

PROTACs contain two different ligands connected by a linker; one is a ligand for an E3 ubiquitin ligase and the other is for the target protein. PROTACs exploit the intracellular ubiquitin-proteasome system to selectively degrade target proteins^[1].

Caution: Product has not been fully validated for medical applications. For research use only.
