
Product Data Sheet

Product Name: Propargyl-PEG4-O-C1-NHS ester

Cat. No.: GC66313

Chemical Properties

Cas. No. 1161883-51-7

Formula C₁₇H₂₅NO₉ M.Wt 387.38

Solubility Storage Store at -20°C

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure

Background

Propargyl-PEG4-O-C1-NHS ester (compound 8) is a PEG-based **PROTAC linker** can be used in the synthesis of PROTACs.

PROTACs contain two different ligands connected by a linker; one is a ligand for an E3 ubiquitin ligase and the other is for the target protein. PROTACs exploit the intracellular ubiquitin-proteasome system to selectively degrade target proteins.

Caution: Product has not been fully validated for medical applications. For research use only.
