
Product Data Sheet

Product Name: Pirimiphos-methyl-d6

Cat. No.: GC66376

Chemical Properties

Cas. No. 1793055-06-7

Formula $C_{11}H_{14}D_6N_3O_3PS$

M.Wt

311.37

Solubility

Storage

Store at -20°C

General tips

For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure **Background**

Pirimiphos-methyl-d6 is the deuterium labeled Pirimiphos-methyl. Pirimiphos-methyl is a rapid-acting organophosphorus insecticide and acaricide, causing inhibition of **AChE** in target organisms. Pirimiphos-methyl is often used for prevention and control of beetles, snout beetles, moths and *Epehstia cautella* during storage of agricultural grains^{[1][2][3]}.

Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration has gained attention because of its potential to affect the pharmacokinetic and metabolic profiles of drugs^[1].

Caution: Product has not been fully validated for medical applications. For research use only.
