
Product Data Sheet

Product Name: Carboxy-PEG2-sulfonic acid

Cat. No.: GC67023

Chemical Properties

Cas. No. 1817735-45-7

Formula $C_7H_{14}O_7S$ M.Wt 242.25

Solubility Storage Store at -20°C

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure

Background

Carboxy-PEG2-sulfonic acid is a PEG-based PROTAC linker that can be used in the synthesis of PROTACs^[1].

PROTACs contain two different ligands connected by a linker; one is a ligand for an E3 ubiquitin ligase and the other is for the target protein. PROTACs exploit the intracellular ubiquitin-proteasome system to selectively degrade target proteins^[1].
