
Product Data Sheet

Product Name: N,N-Diethanol amine-PEG4-Boc

Cat. No.: GC67430

Chemical Properties

Cas. No. 2279944-66-8

Formula C₁₉H₃₉NO₈ M.Wt 409.51

Solubility Storage Store at -20°C

General tips For obtaining a higher solubility , please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT , or blue ice upon request.

Structure **Background**

N,N-Diethanol amine-PEG4-Boc is a PEG-based PROTAC linker that can be used in the synthesis of PROTACs^[1].

PROTACs contain two different ligands connected by a linker; one is a ligand for an E3 ubiquitin ligase and the other is for the target protein. PROTACs exploit the intracellular ubiquitin-proteasome system to selectively degrade target proteins^[1].
