## Product Data Sheet

---

Product Name: p-Cresol sulfate-d7 potassium

Cat. No.: GC70325

### Chemical Properties

Cas. No. 2469278-96-2

Formula C<sub>7</sub>D<sub>7</sub>KO<sub>4</sub>S M.Wt 233.33

Solubility Storage 4°C, sealed storage, away from moisture

General tips For obtaining a higher solubility, please warm the tube at 37 °C and shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.

Shipping Condition Evaluation sample solution : ship with blue ice All other available size: ship with RT, or blue ice upon request.

Structure

### Background

p-Cresol sulfate-d7 (potassium) is the deuterium labeled p-Cresyl sulfate potassium. p-Methylphenyl potassium sulfate is a prototype protein-bound uremic toxin[1][2].

Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration has gained attention because of its potential to affect the pharmacokinetic and metabolic profiles of drugs<sup>[1]</sup>.
